DESIGN POLICIES

LANDSCAPE DESIGN SERVICE

Upon your request, a Boyer Nurseries landscape designer will meet with you at the job site (residence, commercial property, etc.). This initial meeting is a time for the designer to look at the property and discuss the landscape project with you. Following the initial meeting, the designer will prepare a proposal for the total cost to prepare your landscape design.

The landscape design fee is based upon the amount of time spent to: travel to the job site, measure & locate existing features (walks, pool, patio, etc.), consultation with customer, preparation of the plan and ultimately provide you with a detailed drawing of your project. This plan will be drawn to scale and a detailed planting schedule listing botanical and common names of plants will be included. Upon completion of the design, at your request, the designer will prepare a proposal for the installation.

- All designs/plans are prepared on a “first come first serve” basis.
- Peak season back-logs: it is not uncommon to experience a 5-8 week waiting period during the spring and fall months. Your designer will inform you about current workloads; please be patient!
- Once the design/plan is completed, the designer will contact you.
- Discussion of the design/plan with the designer is by “appointment only”. This enables us to spend quality time with you and your project.
- “Do-it-yourselfers” can pick up completed plans upon payment of the design fee.
- Customers who choose to hire Boyer Nurseries to implement the plan will be provided with a proposal for the installation cost based upon the design/plan. ***Upon completion of the installation, 50% of the design fee will be credited to you.***
- Your final billing for all design services will include applicable taxes.
- We encourage you to visit the nursery with your plan and planting schedule at which time you can request assistance from nursery personnel to look at plant materials at no cost.

Thank you for considering Boyer Nurseries & Orchards, Inc. for this project. Should you have any questions, please do not hesitate to call our office at 717-677-8558 or email us at sales@boyernurseries.com
